

ATTC - ACTIVE SHOOTER INSTRUCTOR

3 Day 24 hr course - Tuition \$375

This course is restricted to sworn law enforcement and military personnel only.

OUTLINE AND COURSE OBJECTIVES:

This three day course focuses on those skills necessary for immediate action rapid deployment by Law Enforcement Officers to save lives in situations involving an ongoing, shots fired, or downed officer/citizen rescue. This course specifically deals with responding to active shooters inside buildings, outside and mobile, and response to sniper incidents.

This information allows Officers to combine immediate resources and manpower to interdict and resolve in progress calls where no other options are readily available. This information is not intended to be used as a SWAT team. It is not intended to be used as a means of resolving any type of critical incident other than an immediate, life threatening crisis. This information develops the necessary teamwork and tactics among Officers that are crucial for success during life threatening situations where delayed deployment could otherwise result in death or serious bodily injury to innocent persons.

Response to Active Shooters Inside a Building

Response to Active Shooters Outside (Stationary & Mobile)

Response to Active Sniper Incidents

First Responder Issues

Establishing a Command Post

Individual Tactics

Two, Three and Four Officer Tactics
