

HIGH RISK WARRANT SERVICE

Description: This one day course is based on the component parts of tactical entry situation - teams/officers approach, breaching, entry/clear, suspect control and stand down procedures. The course provides tactical officers with the basic level of training of entering a structure. Combining tactical shooting skills with operational techniques, the course provides tactical training for warrant service situations and other incidents where an entry has been chosen to resolve the situation.

The course is designed as a hands-on operator course which incorporates tactical firearm's skills, live-fire room clearing techniques (covert, slow and deliberate, dynamic). The course provides patrol/tactical officers the opportunity to train together and hone their skills.

Topics covered include:

- Warrant service planning and coordination
- Reconnaissance and Intelligence gathering
- Tactical Firearm Drills
- Suspect Control
- Entry/clearing Techniques
- Immediate Action Drills
- Use of distraction devices
- Door breaching
- Low light shooting

Shoohouse ammunition will be provided with the course cost. The training center stocks 9mm, .40 S&W and .45 ACP. If your weapon system requires a different caliber, please notify the training staff prior to the course. Cost of two day course \$350.

Equipment Needed:

- Body armor or tactical armor
- Baseball style cap
- Wraparound eye protection
- Ear Protection
